A message from Ian Macneill – Managing Director

As we celebrate twenty years in business in Foster it is a good time to reflect. We wanted to start a dealership in 1989 which would have personal service as its main theme. It was a lot easier then as we had a small number of customers and the business was fronted by the owners, Peter Quinn and myself, backed by Patricia Ferron in 'back of house'. Based in our more modest premises in Foster's Avenue life quickly changed as business grew and customer demands rightly increased. 2003 saw the opening of new showrooms, followed by new Service and Parts facilities also in Sandyford. Our pre-owned cars are still sold from Foster's Avenue. My constant drive has been to foster relationships; to always create an environment where you the customer will want to continue

doing business with us. I believe to maintain this, each and every member of the Foster team must always be trustworthy, helpful and friendly. Our company ethos too must reflect your values in professionalism, value for money and consistent standards. I am very proud of the business and how it has developed over the last twenty years and I am very thankful to our customers who have bought cars, parts and used our workshop and valeting services. I am delighted to be able to thank our customers with the Foster loyalty card programme which will provide you with discounts and special offers to both thank you and reward you for your business. Anyone that has bought a Volkswagen car from us can register for their loyalty card at www.fostermotorco.ie or by contacting Suzanne Kavanagh at the showrooms. Please contact us at any time if we can be of assistance to you.

Kindest regards,

Ian Macneill

Managing Director

RTI (Return To Invoice) Insurance

RTI is a new product that Volkswagen Bank Ireland have introduced to their range of products, which is designed to help protect you when you purchase a new or pre-owned car.

Approximately 12,000 vehicles are stolen every year in Ireland and 2,000 of these are never recovered. If your vehicle is stolen or is written-off through an accident your insurance company will generally offer you a total loss payment based on the market value of your vehicle at the time. This value could be significantly less than the original cash price of the vehicle. We are pleased to announce that you can now take out RTI Insurance to help protect your investment.

RTI is a policy that covers the difference between the amount your insurance company will pay and the actual price you paid for your vehicle, up to the value of €20,000. This payment will help you to replace your car with a new car that is the same or similar to the one you have lost.

This policy may only be purchased within 30 days from the purchase of your vehicle.

If you are buying a vehicle Sorcha Diamond, our Business Manager, would be delighted to discuss this insurance with you. You can contact Sorcha on (01) 288 4333 or by e-mail at sdiamond@fostermotorco.ie
